Rules of Use

- Machinery is available for independent use or with the assistance of a staff person. Certain machines, such as the 3D printer and laser cutter/engraver, must be handled by a staff member unless otherwise specified.
- Patrons have access to equipment on a first come basis during Open Hours. At this time, we do not offer individual appointments.
- Equipment must stay in MAKE @ East at all times.
- When 3D printing or laser cutting/engraving, patrons are expected to stay near the machine until their projects are complete.
- For 3D prints, patrons must use the material supplied by MAKE @ East. Charges for 3D prints will be assessed based on the weight of the completed project, and can be paid in cash or billed to your library account.
- When using MAKE @ East equipment for specific projects, patrons must either bring in their own consumable materials or purchase select materials at MAKE @ East. We will only provide consumable materials for the purpose of demonstrating how to operate the equipment.
- We are unable to model or design items for you. We can help with some consultation, and we will attempt to help complete patron projects. However, some limitations may prevent certain requests.
- The Library reserves the right to refuse assisting with a project if the file is deemed to be a weapon, pornographic material, or a potential violation of copyright, patent, or trademark law.
