### ***Summary***

"On November **22**, 1963, three shots rang out in Dallas, President Kennedy died, and the world changed. What if you could change it back? The author's new novel is about a man who travels back in time to prevent the JFK assassination. In this novel that is a tribute to a simpler era, he sweeps readers back in time to another moment, a real life moment, when everything went wrong: the JFK assassination. And he introduces readers to a character who has the power to change the course of history." (*Novelist*)
