## The World-Famous Scenic Resort Hotel In the Pikes Peak Region

Of interest to all visitors is the mirrored image of the Broadmoor Hotel in the Lake of Clearness beside it. The Lake is used as a bathing beach during the summer and for skating in the winter.

Unsurpassed by the beauty of its surroundings, the Broadmoor has been likened to a jewel in a setting of nature's own contriving. With a background of pine-covered hills, it lies at the very junction of mountain and plain—the delight of artists and outdoor lovers alike.

The hotel itself is a place of rare charm. Open the year around it offers everything in the way of entertainment for its guests, from a cosmopolitan atmosphere to a brilliant social life.

## THE BROADMOOR

Including such sports as polo, golf, tennis, riding, motoring, hiking, picnicking, fishing, gymkhanas and swimming.

The all year around famous 18-hole golf course, golf club and lake. Scene from the Broadmoor roof garden.

## The Colorado Springs Chamber of Commerce

### "The City of Sunshine"

Numbering in its membership more than 1400 of the most prominent business men and individuals in the community, the Colorado Springs Chamber of Commerce is a real factor in the development of the city and the entire Pikes Peak Region.

Naturally most of the activity of the Chamber is directed toward the further development of the tourist industry and toward this end extensive advertising is done, information bureaus maintained and the Pikes Peak Region given wide publicity.

The tourist industry is not the only thing to claim the attention of the Chamber of Commerce, however. The development of farm lands, the fostering of better cooperation between farmers and city residents; the consideration of civic problems and the furtherment of civic improvement are other things which come in for their full share of consideration at the meetings of the members and various committees which represent the board of directors.

Large ground-floor quarters are maintained by the Chamber on the first floor of the Independence Building. The rooms are open to guests at all times and the large assembly room is always available for public meetings of a civic or business nature. Here, too, the sessions of the farm bureau are held, and during the summer months the rooms are always the headquarters for the itinerant motorists and visitors who make the Pikes Peak Region their mecca.

In the years of its existence, the Chamber of Commerce has grown to be a real clearing house for ideas; a sort of thresher of suggestions and plans for city betterment and the development of civic stability. Paid officials attend to the routine work of the organization, and a secretary, working full time, directs the work along channels mapped out by the board of directors and the business men who make up the organization.

## PRINTERS

# Better Printing Brings Better Business

## The Printed Word

What a powerful influence it exerts.  
It makes and unmakes kingdoms.  
It builds up or it tears down.  
It is constructive or it is destructive.  
Rightly used, no other influence is equal in power, as  
Printing is the one great force that influences the  
mind of man.

## That's Our Business

To produce the compelling force that moves goods.  
The well-printed word carries the message to the buyers  
and brings in the money.

## Fair Prices

The reason for the fair prices is that they are built on  
the  **FRANKLIN  
PRINTING  
PRICE LIST**  
One fair and equitable price—none  
treated unfairly, none overcharged  
to meet losses on undercharges—ONE  
PRICE TO ALL—and that a fair, just and reasonable one.

Printing is the lever, the great force; it will move the  
goods; it is the one great power to compel purchas-  
ers to release accumulated funds.

Printing is indispensable to all business.

THE JOSLYN QUICK PRINTERY  COLORADO SPRINGS, COLO.

# INTRODUCTION

**C**OLORADO SPRINGS is a modern city which takes pride in its exceptional advantages as a residential center. It is an ideal city of homes and has a population of about 55,000. The city owns a mountain water system valued at more than \$3,500,000, and has several miles of sewerage involving an enormous cost. A modern electric railroad, an up-to-date light and telephone system are also maintained. The city's park system embraces more than two thousand acres and is unexcelled in variety and size. Colorado Springs has long taken rank as an educational center. The public and private schools maintain a very high standard. Colorado College, the oldest institute for higher learning in the state, is located here, as well as the Colorado Institute for the Deaf and Blind. The Union Printers' Home, the Modern Woodmen of America and other sanitariums are located on the outskirts of the city.

Colorado Springs has an altitude of 6,035 feet and that of Manitou 6,335 feet. This region has long held an international reputation of being one of the greatest health and pleasure resorts of the world. The atmosphere is absolutely free from germ life and its curative qualities are attested by the permanent recoveries from lung troubles. It is known as the "City of Sunshine," and the weather records for the past twenty-five years show an average of one hundred eighty clear days and one hundred twenty-eight partly cloudy days, making a total of three hundred eight days of sunshine.

In presenting this, the 17th revised edition of this book to our subscribers, and to the general public, we do so with the assurance that the information is as complete as is possible to get up a work of this kind. We might add that the information contained in the Colorado Springs Directory is by far the most complete of any book of its kind on account of it containing so many additional features that are not included in the average city directory. We regret, however, to call attention to the fact that the book has not been supported in an advertising way as liberally as it deserves, and unless we meet with better support from the business houses we will have to eliminate some features from the next edition of the book.

The up-to-date business houses will be found represented in the advertising departments of the Directory, for business men appreciate the fact the Directory represents the city and its business interests both to the stranger within the gates and the people of the many other cities to which it goes—as no other publication does or can.

### Names Appearing in Black Letters

in this Directory represent the **ENERGY AND PUSH** of the city, and it is a pleasure for the publishers of the Directory to have the opportunity to make the public acquainted with them through our pages. Those in **BLACK LETTERS** are the people who **ACCOMPLISH THE WONDERS** in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city; they are **NOT DRONES AND SPONGERS** who never support anything, and thereby gain by others' hard work and money.

When you **PATRONIZE THOSE IN BLACK LETTERS** you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

Secretary's Office, 125-135 Church St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

**\$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

 203 N. Tejon Street Opposite North Park Electric Fixtures

# Complete Home Food Service

With its very central location—within half a block of all street car transfer points—and with phones on four trunk lines, Sommers' Market offers the ideal home food service.

If anything is available on the market, the food buyer usually knows that she can get it at Sommers', and we make our service thorough down to the last detail.

## Daily News of Good Things to Eat in Advertisements in Both Daily Papers

Every day in the year, we use advertisements in the daily newspapers. We try to make these advertisements informative and of real service to all food buyers.

In each we tell of special offerings, or new delicacies just received, or seasonable foods.

Hundreds of people depend upon these advertisements for food suggestions.

## Don't Hesitate to Ask Us to Deliver Any Delicacy

It frequently happens that Sommers is the only place at which some wanted delicacy—some imported food—some new, seasonable offering—can be obtained. But whether you want these, or some staple, don't hesitate to ask us to send it to you on one of our numerous deliveries. We do this right along.

SOMMERS MARKET CO.

# Everything for Outing Lunches

Being centrally located and convenient to all street car lines, Sommers' has become a natural outfitting point for thousands of outing lunches.

Having our own prepared meats—finest of steaks and chops for broiling over the camp fire—fruits and bakery goods—baskets, bags and so on, one can get an entire lunch in a very short time.

tessen**

**F**OR YEARS, Sommers meats have been known for their fine quality, which can only be insured through experience and careful selection.

And while we will always take pride in this department, it is only one department which goes to make this a complete grocery and food market.

For instance, we have a full line of Heinz pickles in bulk, a counter for hot foods, also departments for fruits, vegetables, fine coffees, etc.

Attentive service whether you call or phone.

## MISTAKES

There are mistakes in this Directory --- no book of this character can be published without mistakes---but we believe that the errors have been held down to the minimum.

You can help the publishers avoid many errors in future issues by giving, in a clear and accurate manner, the information requested by the canvassers when they call upon you.

## Flooded With Sales?

**D**ID YOU ever send out advertising that produced so many inquiries and orders that you were "flooded?"

If so, you know the importance of correct, reliable

### Mailing Lists

and are willing to go to almost any expense to get them.

Our mailing lists are not expensive, but they are up-to-date and complete.

As publishers of over 500 Directories we possess list facilities superior to any other list house.

Tell us the class of prospects you wish to reach, and we will offer some suggestions free and without obligation on your part.

Some of the shrewdest advertisers in the country patronize us—why not you?
