PLEASE NOTE: *TalkGovBiz,TheExperience* are intensive workshops in which attendees must attend fully prepared as instructed at the time of their consultation with CertifytoSuccess (included in the cost of the workshop). Each participant will receive a specific comprehensive list of items to bring to the workshops following their registration and consultation. Participants who do not bring the documentation required will not be able to substantially complete their own unique tools or applications by the end of the workshop experience. However, they will still be able to draft some written documents and learn how to develop the remaining tools and documents.
