# Dear Trustees:

I am pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Pikes Peak Library District (the District) for the year ended December 31, 2011.

This is the twenty-first consecutive year that an annual financial report has been submitted to you in CAFR format, in accordance with guidelines of the Government Finance Officers Association of the United States and Canada (GFOA).

Please refer to pages 31 to 42 for the section of the CAFR called "Management's Discussion and Analysis." This section provides a discussion of the significant issues and analysis of the District's 2011 financial statements.

Last year's CAFR received the Certificate of Achievement for Excellence in Financial Reporting from the GFOA for the twentieth consecutive year. This award is gratifying because it represents acknowledgment that the District has achieved excellence in financial reporting. The District will submit the 2011 CAFR for recognition again this year.

Finally, I want to take this opportunity to thank the Board of Trustees for their oversight, support, and direction of the District's fiscal activities.

Respectfully submitted,

June 27, 2012

To the Board of Trustees and the Citizens of the Pikes Peak Library District:

State law requires that every general-purpose local government publish within seven months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended December 31, 2011.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

**BKD**, LLP, our independent certified public accountants, have issued an unqualified ("clean") opinion on the Pikes Peak Library District's (the District or PPLD) financial statements as of and for the year ended December 31, 2011. The independent accountant's report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Accountants' Report on Financial Statements and Supplementary Information, and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A compliments this letter of transmittal and should be read in conjunction with it.

# PROFILE OF THE GOVERNMENT

# **Government Structure**

The District is considered to be a "Library District," which is a separate legal entity, and was created through Colorado State Statute (C.R.S. 24-90-110). The District is not considered to be a component unit of any other government entity, including El Paso County, Colorado, and is financially, managerially and operationally independent, and meets the guidelines of Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*.

The District has two component unit affiliations: The Pikes Peak Library District Building Authority (a blended component unit) and the Pikes Peak Library District Foundation, Inc. (a discretely presented component unit), organized in 2003 to raise funds for the sole benefit of the District.

The District provides library services to all of El Paso County, excluding the Town of Manitou Springs and the Security/Widefield School District #3.

There are fourteen library facilities located in the District service area and three mobile libraries covering a service area of nearly 2,000 square miles. The District owns seven facilities – East Library, Fountain Library, High Prairie Library, Old Colorado City Library, Penrose Library Complex, Sand Creek Library, and the facility at 1175 Chapel Hills Drive – and leases the other seven facilities – Briargate Library, Cheyenne Mountain Library, Monument Library, Palmer Lake Library, Rockrimmon Library, Ruth Holley Library, and Ute Pass Library. Additionally, the District maintains a leased Express Library at First & Main Town Center.

The District's Administrative divisions include the Executive Director's Office, the Finance and Business Office, the Administrative Services Office (human resources, circulation, shelving, collection management, facilities and security operations), the Information Technology and Virtual Services Office, and the Community Engagement and Outreach Office (public relations, video production, and design/print operations).

The District's Board of Trustees consists of seven members. A joint committee comprised of the Board of El Paso County Commissioners and the City of Colorado Springs Council appoints the members to five-year terms of office. Appointees serve a maximum of two five-year terms. The Trustees convene at regular meetings and at special meetings when necessary to conduct the business of the District. While prohibited by law from receiving compensation, Trustees are reimbursed for necessary travel, training, and miscellaneous expenses.

The Board of Trustees is required to adopt a final budget by no later than December 15<sup>th</sup> of each fiscal year. The annual budget serves as a foundation of the Pikes Peak Library District's financial planning and control. The budget is prepared by fund and by department. Managers and supervisors may transfer funds within the same expenditure category. Transfers between expenditure categories require special approval by the Board of Trustees.

# **About Pikes Peak Library District**

PPLD is a nationally recognized system of public libraries serving a population of more than 575,000 in El Paso County, Colorado. PPLD's thirteen facilities, online resources, and mobile library service make it a vital force for individual and community transformation. PPLD has an employee base of 446 full and part-time staff, and utilizes roughly 1,500 volunteers. It strives to reach all members of the community, providing free and equitable access to information and an avenue for personal and community enrichment. PPLD is recognized for its commitment to diversity and community collaboration, its quality programming, and its excellent customer service.

Pikes Peak Library District is the second largest library district in the State of Colorado and regularly places in the top tier of national library rankings. The District serves a 2,000 square mile service area in El Paso County, including all unincorporated areas and cities of Colorado Springs, Fountain, Monument, Palmer Lake, and Calhan.

# **OUR MISSION**

seek

engage

transform

Providing resources and opportunities that change individual lives and build community.

# **OUR VISION**

A library system that connects people with books, with technology, with ideas, with each other, and with their community

A library system that is not just about the resources within its walls, but that is also about extending the values of knowledge and learning beyond its walls

# PIKES PEAK LIBRARY DISTRICT

A library system that builds community - by developing intellectual capital, by impacting economic vibrancy, by fostering civic engagement, and by contributing significantly to the quality of life in the Pikes Peak Region

A library system that promotes popular culture as well as our cultural heritage

# **OUR VISION**

A library system that welcomes all, that has resources and programs for all, that is used by all, and that is valued highly by all

A library system that encourages and celebrates reading, that fosters learning and discovery, and that facilitates thinking and dialogue

# OURVISION

Efficiency & Effectiveness Strategic Thinking & SustainableValue Responsive & Relevant Services

Collaboration & Partnerships

Integrity

Inclusion

Innovation

Intellectua Freedom

User Privacy

The history of public libraries in the region began in October 1885 when the Colorado Springs Social Union established a library on the corner of Tejon and Cucharras Streets in downtown Colorado Springs. In 1905, a new library opened at 21 West Kiowa Street with funds donated by Andrew Carnegie and land granted by General William Jackson Palmer.

In 1962, a majority of the citizens of El Paso County voted to establish a special taxing district and The District was formed. The District serves all of El Paso County except Security/Widefield School District #3 and the Town of Manitou Springs. Library policy is set by a Board of Trustees: seven citizens appointed jointly by the Colorado Springs City Council and Board of El Paso County Commissioners for a maximum of two five-year terms.

# MAJOR INITIATIVES

Numerous milestones were commemorated in 2011, from anniversaries to service launches. The Ruth Holley Library celebrated 25 years of service in the community and Cheyenne Mountain Library reached 35 years. PPLD opened its first Library Express, an unstaffed service center with vending machines for materials and catalog access. The Library Express, at First & Main Town Center, is a beta project for this new service model. The District also began checking out eReaders in a campaign to help traditional readers transition to new technologies and changing service delivery.

Awards were also numerous. Among the recognized: Special Collections Manager Tim Blevins received the Filby Award for Genealogical Librarianship; ILL Specialist Kirk Farber won a Colorado Book Award for his debut novel; Video Producers Dave Franklyn and Jamey Hastings won Telly Awards for their work; Chief Finance Officer Michael Varnet, CPA received the Unsung Hero Award from Colorado Association of Libraries; Associate Director Sydne Dean received the Career Achievement Award from Colorado Association of Libraries; Mobile Library Manager Jan Meadows (retired) received the John Philip Award for Leadership from the Association for Bookmobiles and Outreach Services; and PPLD was honored with the Award for Diversity and Inclusion by the Colorado Springs Diversity Forum. In addition, PPLD earned the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for the 21st consecutive year.

PPLD's focus on efficiency and sustainable funding paid off with the acquisition of a new facility in north central El Paso County in January 2012. The 112,883 square foot building, which effectively increases the District's space almost 50 percent, was purchased as part of an in-depth look at community needs and real estate opportunities. Planned public and internal spaces include expansion of the Briargate Library, development of a Creative Computer Commons, relocation of administrative services, and redeployment of collection development.

Additional highlights from 2011 include participation in a federal Broadband Technology Opportunity Program grant that supported the build out of computer service at Cheyenne Mountain, Sand Creek, and Penrose Libraries. Funds were also secured for the development of employment classes and resources. The Endowment for the Asian-Pacific American Historical Cultural Fund was established to ensure that Asian-Pacific Americans are richly represented in the Library's collections and programs.

A study of the District's materials processing delivery system – from acquisition to first use – is planned for 2012. A Tech Services workgroup and the materials handling hot team will direct the project, which will be conducted by a consultant. The report will include strategic performance objectives, a process flowchart and timeline analysis, performance gap analysis, recommendations and concept designs, and a cost benefit analysis.

New initiatives included: Cinema Spotlight, a film project that gives Colorado Film makers an opportunity to show and talk about their work; Career Compass, an online toolkit connecting job seekers and others with resources and opportunities; Frozen to Death on Pikes Peak, a film promoting use of library resources and historical records; Latina Voices, a community based program honoring the contributions of Latinas in our community; LitSource Adult Literacy and ESL participation in the GIVE! Campaign raising funds and friends in the community.

Energy Performance Guarantee Contracts for its East Library, Penrose Library and the office building located adjacent to the Penrose Library will be completed by midyear 2012. The District will realize guaranteed savings from the upgrades to systems and facilities.

# LOCAL ECONOMY

The information included in the following paragraphs under this caption has been extracted and summarized from the Colorado Springs Chamber of Commerce, Colorado Department of Revenue, Colorado Springs Economic Development Corporation, Colorado Department of Education, the Bureau of Labor Statistics, U.S. Census Bureau, and the Colorado Springs Convention and Visitors Bureau.

# Population

As of December 31, 2011, the population of El Paso County was estimated at 634,886 (the District's legal service area comprises 575,789 of this total). Colorado Springs, the largest municipality within El Paso County (the County), is the 41st largest city in the nation. The County's population has increased by about 105,000 since 2000, with about half of the increase due to in-migration and the balance due to natural growth.

# Age

The projected median age for El Paso County is 34 at the end of 2011. The following are estimates of the population for El Paso County by certain age categories:

Under 15	135,756	21.4%
15-24	98,380	15.5%
25-44	171,462	27.0%
45-64	163,751	25.8%
65+	65,537	10.3%
Total	634,886	

# **Industries**

The following chart shows the percentage of employment by industry type:

Government, including military	19.7%
Professional and business	15.7%
Wholesale and retail trade	13.6%
Leisure and hospitality	12.4%
Education, health care	12.3%
Financial	6.3%
Manufacturing	5.0%
All other	15.0%

# Wage/Salary

Wages are competitive with similarly sized cities, but the average education of the El Paso County employee is greater, providing employers with a high value workforce.

In regularly conducted surveys, local employers rank the quality, dependability and stability of the El Paso County workforce as some of the community's top strengths. Local employers also consistently rank the caliber of their employees as higher than that of employees in sister facilities elsewhere.

The following chart depicts the estimated annual mean of wage levels for certain occupations:

Occupation	Annual Wages	
Accountants and Auditors	\$	60,680
Bank Tellers		27,100
Bookkeeping, Accounting, and Auditing Clerks		33,520
Carpenters		38,760
Civil Engineers		73,940
Computer Programmers		82,140
Correctional Officers		41,780
Dental Hygienists		66,560
Electrical Engineers		83,670
Elementary School Teachers		45,790
Executive Secretaries		45,960
Financial Analysts		81,350
Graphic Designers		43,410
Order Clerks		31,570
Payroll Clerks		36,060
Physicians and Surgeons		187,710
Property Managers		59,100
Social Workers		54,690
Systems Analysts		86,080

# **Consumer Spending**

Retail sales for 2011 were about 1.1% higher than 2010. Population and per capita income drive consumer spending. Both are expected to increase in the future.

# Cost of Living

Colorado Springs' cost of living index for 2011 was 92.5, which is slightly lower than the nation as a whole. The following chart compares the cost of living index for Colorado Springs to other cities:

Los Angeles, CA	132.8
Seattle, WA	117.1
Portland, OR	113.6
Denver, CO	105.0
Las Vegas, NV	100.1
National Average	100.0
Phoenix, AZ	96.5
Dallas, TX	96.2
Boise, ID	96.1
Albuquerque, NM	94.6
Salt Lake City, UT	94.6
Colorado Springs, CO	92.5

# Housing

Colorado Springs currently has a supply of reasonably affordable housing, which is important because much of the country is having a difficult time providing this necessity. Colorado Springs' median household income is currently above the levels needed to meet the average cost of housing.

The following chart compares the average price of a new 2,400 sq. ft. home in Colorado Springs to other cities at the end of 2011:

Los Angeles, CA	\$ 540,850
Portland, OR	356,341
Seattle, WA	342,917
Denver, CO	339,420
National Average	286,731
Salt Lake City, UT	273,368
Las Vegas, NV	261,021
Colorado Springs, CO	247,964
Phoenix, AZ	241,396
Boise, ID	238,006
Dallas, TX	207,192

At the end of 2011, apartment rental rates are equally reasonable when compared to approximately 950 square foot apartments with 2 bedrooms and 1.5 or 2 full baths in other cities:

		Per Month		
Los Angeles, CA		\$	1,863	
Seattle, WA			1,473	
Portland, OR			1,289	
Phoenix, AZ			889	
Denver, CO			853	
National Average			840	
Colorado Springs, CO			808	
Salt Lake City, UT			789	
Las Vegas, NV			766	
Dallas, TX			738	
Boise, ID			703	

# **Tourism**

Tourism remains one of the main draws to the Colorado Springs area. More than 4.7 million visitors per year put nearly \$1 billion dollars into the local economy. Top attractions include the world renowned Garden of the Gods followed by the United States Air Force Academy. Most visitors to the Colorado Springs area come from Colorado followed by Texas and California.

# Roads

Colorado Springs is conveniently located near the geographical center of the United States, providing easy access to Interstate 70 heading east-west and Interstate 25 heading north-south. To the city's east, Powers Boulevard is a major north-south thoroughfare providing rapid access for the city's growing eastern edge. Highway 24 bypass provides an east-west route.

# Airport

Air travel is easy from Colorado Springs with two airports from which to choose in close proximity. The Colorado Springs airport features 16 gates and a 13,500-foot runway, which allows modern aircraft to reach any city in North America. The airport is capable of handling all jet aircraft including wide body planes. Denver International Airport is just 75 miles to the north (about 1 hour and 30 minutes by car on Interstate 25 and E-470).

# Legislation

The State of Colorado operates under the Taxpayer Bill of Rights (TABOR), which imposes restrictions on collected property tax revenues in relation to fiscal year spending. Both amounts cannot exceed the prior year's amount (adjusted for inflation and a growth factor) without voter approval. TABOR also imposes restrictions and stipulations on elections, including bond issuances and mill levy increases.

# Education

El Paso County has seventeen school districts, as well as private elementary/high schools, charter schools, and the state-sponsored Colorado School for the Deaf and the Blind. The 79.8% high school graduation rates in El Paso County are higher than those for Colorado, but are still below the Colorado Department of Education's target of 90%.

Colorado Springs has 18 institutions of higher education. The three largest are:

	Total Enrollment
Pikes Peak Community College	13,572
University of Colorado at Colorado Springs	9,348
United States Air Force Academy	4,619

# **National Rankings**

- Colorado Springs ranked 17th Most Secure Place to Live by Farmers Insurance Group's 8th annual study.
- Colorado Springs ranked 2nd in the nation for military veterans and their families to call home by Livability.com.
- Colorado Springs ranked 5th Great City for Young Adults by Kiplinger.
- Colorado Springs ranked 9th for recovery in the economic downturn according to The Brookings Institute.
- Colorado Springs ranked 11th Best Drivers Report by Allstate.
- Colorado Springs ranked 4th Best Value City by Kiplinger's Personal Finance.
- Colorado Springs ranked 15th Best City for Families according to Parenting.com.
- Colorado Springs ranked 6th best metropolitan area in America for getting the most "bang for your buck" by U.S. News.
- Colorado Springs ranked 7th in the nation for cities poised for an "early turnaround" in the housing market according to a study released by Realtor.com.
- Colorado Springs ranked 18th greenest city by The Daily Beast.

# OTHER ITEMS

# **Internal Controls**

The District has a number of policies and procedures, which govern the operations of the District to ensure effective cash management, compliance with government accounting regulations, and good business practice. The objectives of these policies and procedures are commensurate with our District-wide goals to effectively manage the current assets and resources of the District.

The oversight responsibilities of the financial operations of the District rest with the Board of Trustees. Each month the Board is provided detailed financial information, prepared by the Finance Office, including financial statements and budget analysis for each fund. The Board is responsible for all budgetary resolutions and approvals, and for setting the mill levy annually. The Board is also responsible for the approval of any real estate transactions, bonded debt, borrowing of funds, and major contracts.

The Executive Director has the authority to negotiate and sign regular operational contracts, and to approve expenditures up to \$50,000. The Chief Finance Officer can authorize purchase orders under \$5,000. Purchases in excess of \$50,000 are submitted to the Board of Trustees for approval. These, and other stipulations, are included in an extensive Financial Guidelines Policy, which was approved by the Board of Trustees.

Segregation of duties is a guiding principle in the Finance Office. For example, the staff members who count the cash and prepare deposit slips are not authorized to record deposits in the accounting system. Only a few staff members are given the combination of the safe, and only the Chief Finance Officer and the Executive Director are authorized to affect wire transfers or banking transactions.

The Chief Finance Officer approves all purchase orders, payments of services, and journal entries. The accounting system is carefully set up to allow rights for certain functions to the appropriate staff members only. A staff member who does not have cash receipt or cash disbursement responsibility processes bank reconciliations, but such reconciliations must be reviewed and approved by the Finance Officer.

Internally performed cash audits of all petty cash and cash registers banks are scheduled periodically at the Library locations.

We believe that the cash management procedures in place are thorough and comprehensive, providing an effective environment of safety and good stewardship of the taxpayers' trust.

# AWARDS and ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Pikes Peak Library District for its Comprehensive Annual Financial Report for the year ended December 31, 2010. This was the twentieth consecutive year that the District has received this prestigious award.

In order to be awarded a Certificate of Achievement for Excellence in Financial Reporting, the government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must justify both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement for Excellence in Financial Reporting program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

We wish to thank the members of the Board of Trustees for their leadership and support.

Finally, we would like to offer special thanks to the following individuals who are employed by the District's Finance Office, and whose efforts and contributions made the preparation of the 2011 CAFR a success:

Dana Austin Leslie Campbell Carol Holt Dawn Ouradnik Laurie Sullivan Arnie Wehofer Tatiana Zonte Merry Zumwalt

Respectfully submitted,

Paula J. Miller

# Independent Accountants' Report on Financial Statements and Supplementary Information

Board of Trustees Pikes Peak Library District Colorado Springs, Colorado

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Pikes Peak Library District (the District) as of and for the year ended December 31, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Pikes Peak Library District as of December 31, 2011, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we

Board of Trustees Pikes Peak Library District

obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual fund financial statements and schedules supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The 2011 supplementary information has been subjected to the auditing procedures applied in the audit of the 2011 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2011 supplementary information is fairly stated in all material respects in relation to the basic financial statements as of and for the year ended December 31, 2011, as a whole. We also have previously audited in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements as of and for the year ended December 31, 2010, which are not presented with the accompanying financial statements. In our report dated July 26, 2011, we expressed unqualified opinions on the respective financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information. In our opinion, the 2010 comparative combining and individual fund financial statements and schedules supplementary information is fairly stated in all material respects in relation to the basic financial statements as of and for the year ended December 31, 2010, taken as a whole.

Our audit was conducted for the purpose of forming opinions on the basic financial statements as a whole. The introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

June 27, 2012

BKD, LLP

# Management's Discussion and Analysis (Unaudited) December 31, 2011

As management of the Pikes Peak Library District, we offer readers of the Pikes Peak Library District financial statements this narrative overview and analysis of the financial activities of the Pikes Peak Library District (the District or PPLD) for the year ended December 31, 2011. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 11 through 21 of this report.

# **Financial Highlights**

- The District's assets exceed its liabilities by \$44,417,735 (net assets) as of December 31, 2011.
- Total net assets are comprised of the following:
  - (1) Invested in capital assets, net of related debt of \$32,872,879 includes property and equipment, net of accumulated depreciation, less a capital lease with an outstanding balance of \$65,401, and less accounts payable incurred for capital projects as of December 31, 2011.
  - (2) Net assets of \$858,203 are restricted by constraints imposed from outside the District such as debt covenants, grantors, laws, or regulations.
  - (3) Unrestricted net assets of \$10,686,653 represent the portion available to maintain the District's continuing obligations to citizens and creditors.
- The District's General Fund reported total ending fund balance of \$6,037,042 this year. This compares to the prior year ending fund balance of \$8,355,418 showing a decrease of \$2,318,376 during the current year.
- At the end of the current calendar year, unassigned fund balance for the General Fund was \$2,681,795 or 16.75% of total General Fund expenditures including transfers for the year ended December 31, 2011.
- Overall, the District continues to maintain a moderately strong financial position, in spite of a weakened local and national economy.

The above financial highlights are explained in more detail in the "Financial Analysis of the District as a Whole" section of this document.

# **Overview of the Financial Statements**

This Management's Discussion and Analysis document introduces the District's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves. Comparative data is presented when available.

# Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

# **Government-wide Financial Statements**

The District's annual report includes two District government-wide financial statements. These statements provide both long-term and short-term information about the District's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination of internal activities between funds.

The first of these government-wide statements is the *Statement of Net Assets*. This is the government-wide statement of financial position presenting information that includes all of the District's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of District infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the District's net assets changed during the current calendar year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the District's distinct activities or functions on revenues provided by the District's taxpayers.

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by property taxes and from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general library operations. The District has no business-type activities.

The government-wide financial statements also include the financial statements of Pikes Peak Library District Foundation, Inc., a legally separate entity. Financial information for this component unit is reported separately from the financial information presented for the District (primary government) in accordance with GASB 39, Determining Whether Certain Organizations Are Component Units – an amendment of GASB Statement No. 14.

The government-wide financial statements are presented on pages 43 through 48 of this report.

## **Fund Financial Statements**

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's significant funds. Each major fund is separately reported.

# Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

The District has the following fund types:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financial requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 49 through 52 of this report.

The Internal Service Fund (Employee Health Plan) is reported in the fund financial statements, and generally reports employee and employer contributions along with benefit claims paid and administrative costs related to the District's partially self-insured health plan offered to employees with a regularly scheduled workweek of 30 or more hours.

The basic Internal Service fund financial statements are presented on pages 53 through 55 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because those resources are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for the government-wide statements.

The basic fiduciary fund financial statement can be found on page 56 of this report.

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the basic financial statements begin on page 57 of this report.

# Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's detailed budget presentations for its general fund. These statements and schedules demonstrate compliance with the District's adopted and final revised budget. The required supplementary information can be found on pages 83 through 87.

# Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

As discussed, the District reports two major funds and several nonmajor funds in the basic financial statements. The individual governmental fund comparative statements are presented in a subsequent section of this report beginning on page 88.

# Financial Analysis of the District as a Whole

The District's net assets at calendar year-end are \$44,417,735. The following table provides a summary of the District's net assets as of December 31, 2011 and 2010:

	Summary of Net Assets					
	20	2011		2010		
	Governmental Activities	Percentage of Total	Governmental Activities	Percentage of Total		
Assets			1975 a 24 Pa 24.	37845		
Current and other assets	\$ 38,360,121	54%	\$ 35,726,177	52%		
Capital assets	33,056,668	46%	33,004,545	48%		
Total assets	71,416,789	100%	68,730,722	100%		
Liabilities						
Current liabilities	25,888,116	96%	25,032,625	96%		
Noncurrent liabilities	1,110,938	4%	1,150,767	4%		
Total liabilities	26,999,054	100%	26,183,392	100%		
Net Assets						
Invested in capital assets,						
net of related debt	32,872,879	74%	32,881,474	77%		
Restricted	858,203	2%	771,319	2%		
Unrestricted	10,686,653	24%	8,894,537	21%		
Total net assets	\$ 44,417,735	100%	\$ 42,547,330	100%		

The District continues to maintain a moderately high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. However, to make this ratio meaningful, we have eliminated the property taxes receivable and the unearned revenue for an identical amount for governmental activities. After this elimination, governmental activities' current assets are \$14,705,743 and current liabilities are \$2,233,738. As a result, the current ratio for the District overall is 6.6 to 1. The current ratio as of December 31, 2010 was 5.8 to 1. This ratio is strong.

The District reported positive balances in net assets. Net assets increased \$1,870,405 for governmental activities. The increase in net assets indicates the District's overall financial position improved during 2011.

Approximately 74% of the District's net assets is comprised of capital assets as of December 31, 2011. The District uses these capital assets to provide services to its citizens.

# Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

The following table provides a summary of the District's changes in governmental activities' net assets for the years ended December 31, 2011 and 2010:

		Summary of Changes in Net Assets					
	2011		2010		10		
		vernmental Activities	Percentage of Total	Governmental Activities		Percentage of Total	
Revenues							
Program							
Charges for services, sales and fines	\$	521,577	2%	\$	526,805	2%	
Operating grants/donations		181,675	1%		163,885	1%	
Capital grants/donations		249,275	1%		1,136,247	4%	
General							
Taxes		24,796,451	95%		24,272,079	92%	
Other	_	242,981	1%	_	200,280	1%	
Total revenues	_	25,991,959	100%		26,299,296	100%	
Program expenses							
Public services		7,704,551	32%		8,132,184	33%	
Administrative services		11,256,992	47%		10,916,543	45%	
Director's Office		366,455	2%		339,211	1%	
Finance Office		404,789	2%		451,191	2%	
Information Technology Office		1,634,549	7%		1,472,077	6%	
Community Relations Office		676,199	3%		731,409	3%	
Other administration		2,073,758	9%		2,235,421	9%	
Interest expense	_	4,261	0%		6,085	0%	
Total expenses		24,121,554	100%		24,284,121	100%	
Change in net assets		1,870,405			2,015,175		
Beginning net assets	-	42,547,330			40,532,155		
Ending net assets	\$	44,417,735		\$	42,547,330		

# **Governmental Revenues**

The District is heavily reliant on taxes to support governmental activities. Taxes provided 95% of the District's total revenues. Also, note that program revenues generated only 4% of governmental activities' revenues for the year ended December 31, 2011. This means that the government's taxpayers and the District's other general revenues fund 96% of the governmental activities. As a result, the general economy and the changes in both residential and commercial property values have a major impact on the District's revenue streams.

# Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

# **Governmental Function Expenses**

Public services comprise 32% of the District's total governmental expenses. Approximately 68% of the District's expenses provide supporting services to the public service function. Approximately \$898,000 of depreciation expense on the District's buildings is included in total expenses and total depreciation expense was approximately \$5.4 million.

# Financial Analysis of the District's Funds

# Governmental Funds

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$13,057,398.

Fund balances as of December 31, 2011 and 2010 include:

	2011			2010 *	
Amount to be set aside for emergency reserve	1.				
pursuant to the TABOR amendment	\$	-	\$	765,671	
Encumbrances		2		1,087,136	
Debt service		-		5,648	
Prepaid items		-	.5	329,278	
Unreserved - designated		-		4,810,136	
Unreserved - undesignated		~		4,159,619	
Nonspendable		302,673		-	
Restricted		858,203		-	
Committed	6	,930,814		-	
Assigned	2	,283,913		-	
Unassigned	2	,681,795		-	
	\$ 13	,057,398	\$	11,157,488	
	-		_		

<sup>\*</sup>Net assets presentation as of January 1, 2011 has been changed due to the implementation of a new accounting standard; however, 2010 numbers have not been adjusted as it is not practical to do so. There was no impact on beginning fund balance or change on fund balance as a result of this implementation.

# Major Governmental Funds

The General Fund is the District's primary operating fund and the largest source of day-to-day service delivery. The General Fund's fund balance decreased by \$2,318,376 during 2011. The total fund balance in the General Fund as of December 31, 2011 is \$6,037,042. The total fund balance as of December 31, 2010 was \$8,355,418.

## Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

The fund balance of the General Fund is broken down as follows as of December 31, 2011 and 2010:

	2011			2010 *		
Reserved fund balance	\$	-	\$	1,684,352		
Unreserved designated fund balance		-		2,511,447		
Unreserved undesignated fund balance		2		4,159,619		
Nonspendable		302,673		-		
Restricted		768,933		-		
Assigned	2.	283,641		-		
Unassigned	2,	681,795		-		
	\$ 6	037,042	\$	8,355,418		

<sup>\*</sup>Net assets presentation as of January 1, 2011 has been changed due to the implementation of a new accounting standard; however, 2010 numbers have not been adjusted as it is not practical to do so. There was no impact on beginning fund balance or change on fund balance as a result of this implementation.

The primary reason for the decrease in fund balance as a whole was the transfer of \$4,050,000 from the General Fund to the North Facility Project Fund (a major governmental fund) for the purchase of and renovation of a facility in the north proximity of Colorado Springs Colorado. The purchase occurred in January 2012.

#### Nonmajor Governmental Funds

Nonmajor governmental funds include one Special Revenue Fund, a Debt Service Fund, and seven Capital Projects Funds.

Special Revenue Fund – Total fund balance as of December 31, 2011 is \$582,580. This amount is \$271,399 higher than the fund balance as of December 31, 2010.

Debt Service Fund – The debt service fund was closed in 2011 because there was no activity.

Capital Projects Funds – As of December 31, 2011, fund balance for specific funds equals the following and represent ongoing projects; funds not listed have zero balances and were closed as projects were completed:

East Library Renovation Fund	\$ 799,707
Penrose Library Renovation Fund	207,521
Monument Facility Project Fund	300,000
Capital Reserve Fund	159,621

## Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

For 2011, capital outlay for those specific funds equaled the following:

Bookmobile Purchase and Falcon Project Fund	\$ 2,173
East Library Renovation Fund	692,727
Penrose Library Renovation Fund	367,366
Capital Reserve Fund	585,962

#### **Budgetary Highlights**

#### General Fund

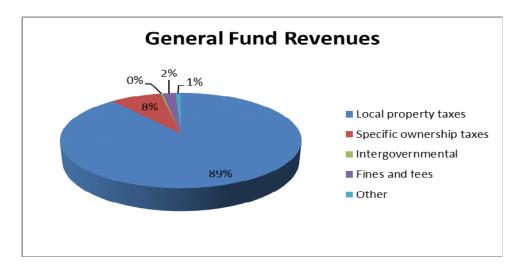

The original budget (expenditures and transfers out) was amended by \$5,985,018 principally to utilize prior year fund balances that were primarily either reserved for encumbrances or designated for specific capital projects and the unspent library material budget from fiscal year 2010. Such reserves and designations of fund balance were not included in the original 2011 budget.

In addition, the District established a capital projects fund to account for all financial activity related to significant capital purchases not otherwise accounted for under a specific capital projects fund. The District had previously set up line items in its capital outlay accounts for such activity. Given the magnitude of this activity and because financial resources are being accumulated over several years, the District concluded that the financial activities for such purchases should be accounted for as Capital Projects Fund.

#### **General Fund Revenues**

Total General Fund actual revenues for fiscal year 2011 are \$25,541,098. This amount was less than the 2011 budget, as amended, by (\$101,085), which is less than 1% of the total revenue budget.

The following chart depicts General Fund revenue for 2011 by category:

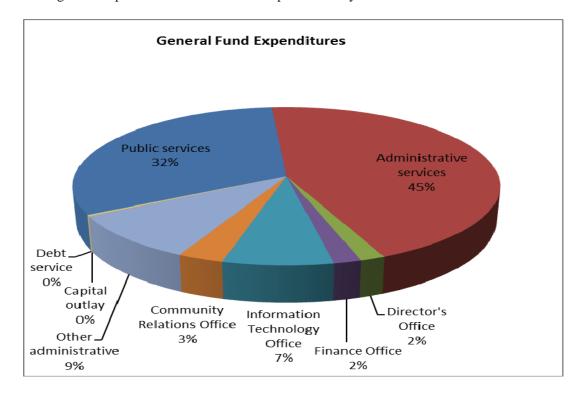

## Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

#### **General Fund Expenditures**

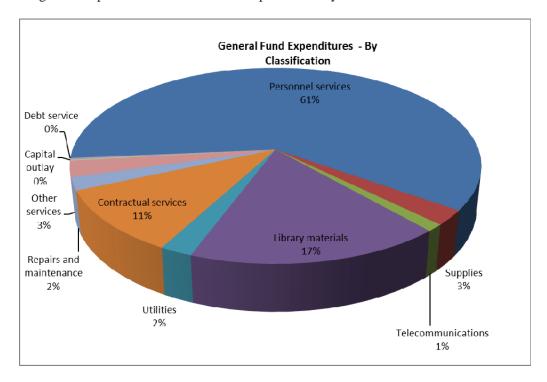

Total General Fund actual expenditures for fiscal year 2011 are \$21,972,312. This amount was less than the 2011 budget, as amended, by \$3,655,230, which is approximately 14% of the total budget.

The following chart depicts 2011 General Fund expenditures by function:

## Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

The following chart depicts 2011 General Fund expenditures by classification:

The following is a summary of the departments or accounts that significantly contributed to the difference between the 2011 budget and actual expenditures:

<u>Public Services</u> – For 2011, this function was under budget by \$433,844. The primary cause is due to staff positions that were vacant at some point throughout 2011. The budget includes all authorized positions budgeted at the amount for full employment during the entire year. During the year, there are periods of time when positions are vacant, and it is during this time when savings are realized.

<u>Administrative Services</u> – For 2011, this function was under budget by \$2,146,620. The primary reason for this amount is the library material budget was under budget by approximately \$1.5 million.

<u>Information Technology</u> – For 2011, this function was under budget by \$259,227. In short, anticipated expenditures related to telecommunications expansion, computer related contractual services and systems maintenance were not as high as expected for 2011.

Other Administrative – For 2011, the accounts included in this category were under budget by \$352,058. The primary reason for this is the District budgets for possible payouts of accrued leave should there be turnover in staff. The total turnover resulting in payouts was not as high as estimated.

## Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

<u>Capital Outlay</u> – Any unspent capital outlay funds during the year are carried forward to the subsequent year as part of the mid-year budget adjustment. The total amount spent less than the 2011 budget is \$367,407. Certain capital projects have either started late during 2011 or they were deferred to a subsequent year.

#### Capital Assets

The District's capital assets, net of accumulated depreciation, for governmental activities as of December 31, 2011 was \$33,056,668. See note III-D on page 76 for additional information about changes in capital assets during the calendar year and balances at the end of the year.

The following table provides a summary of capital assets as of December 31, 2011 and 2010:

	Capital Assets						
	20	11	2010				
	Governmental Activities	Percentage of Total	Governmental Activities	Percentage of Total			
Nondepreciable assets							
Land	\$ 4,331,987	6%	\$ 4,331,987	6%			
Construction-in-progress	99,257	0%	-	0%			
Collections of historical treasures	9,275,615	12%	9,115,453	12%			
Total nondepreciable	13,706,859		13,447,440				
Depreciable assets							
Leasehold improvements	1,221,221	2%	1,211,368	2%			
Buildings	30,355,917	39%	29,433,156	39%			
Equipment, furniture and fixtures	6,056,131	8%	5,880,575	8%			
Bookmobiles and vans	801,494	1%	764,781	1%			
Books and materials	25,667,449	33%	25,050,585	33%			
Total depreciable assets	64,102,212	100%	62,340,465	100%			
Less accumulated depreciation	(44,752,403)		(42,783,360)				
Book value - depreciable assets	19,349,809		19,557,105				
Percentage depreciated	70%		69%				
Book value - all capital assets	\$ 33,056,668		\$ 33,004,545				

## Management's Discussion and Analysis (Unaudited) (Continued) December 31, 2011

At December 31, 2011, the depreciable capital assets for governmental activities were 70% depreciated. This compares consistently to the December 31, 2010 percentage of 69%.

#### North Facility Project Fund

The purpose of the North Facility Project Fund is to account for all financial activity related to the purchase and renovation of a facility in Northern Colorado Springs. The purchase of the facility was completed in January 2012. The purchase price was \$3.75 million. During 2011, a total of \$5,049,927 was transferred into this fund, primarily from the general fund. Additionally, during 2011, a total of \$79,000 was spent as a deposit which allowed the District to complete its due diligence work on the facility.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The following factors have been considered when the 2012 budget was prepared:

- 1. The unemployment rate for El Paso County, Colorado was 8.9%, which is a decrease from a rate of 10.5% a year ago.
- 2. Inflationary trends in the region and the cost of living indexes in the region compare favorably to national indices.

At December 31, 2011, unassigned fund balance in the General Fund totaled \$2,681,795. The District has not appropriated any of this balance for spending in the 2012 fiscal year budget.

For the fiscal year 2012 budget, the total mill levy is 3.999 mills. The mill levy for fiscal year 2011 was 3.556 mills. The gross assessed valuation for all taxable property within the District's legal service area is \$5,968,035,500 and \$6,462,164,700 for 2012 and 2011, respectively.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This Financial Report is designed to provide a general overview of the District's finances, compliance with finance-related laws and regulations, and demonstrate the District's commitment to public accountability. If you have any questions about this report, or would like to request additional information, contact the District's Financial Office at 5550 N. Union Blvd., Colorado Springs, Colorado 80918.

### Statement of Net Assets December 31, 2011

#### Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets December 31, 2011

Amounts reported for governmental activities in the statement of net assets (page 43) are different because:

Fund balances - total governmental funds (page 49)

\$ 13,057,398

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds

Cost of capital assets
Less: accumulated depreciation

\$ 77,809,071 (44,752,403)

33,056,668

Liabilities that are not due and payable in the current period and, therefore, are not reported in the funds

Accounts payable - operating leases with escalation clauses
Capital lease
Accrued compensated absences

(219,973) (65,401) (1,675,449)

Internal service funds are used by management to charge the costs of certain activities, such as health insurance,

to the individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets

264,492

Net assets - governmental activities (page 43)

\$ 44,417,735

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended December 31, 2011

Amounts reported for governmental activities in the statement of activities (pages 46 and 47) are different because:

Net change in fund balances - total governmental funds (page 51)	\$	1,899,910
Governmental funds report capital outlays as expenditures.  However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this difference are as follows:  Depreciation expense  Capital outlay for building, furniture, land and vehicles  Amounts paid for books and audio visual materials		(5,369,338) 1,593,090 3,900,814
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds		
Operating leases with rental escalation clauses that are reported on the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds		35,634
In the statement of activities, only the loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the book value of the capital assets sold		(72,443)
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets  Principal payments		57,670
Compensated absences expenses reported on the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds		(17,819)
Internal service funds are used by management to charge the costs of certain activities, such as health insurance, to the individual funds. The net revenue of the internal service fund is reported with governmental activities		(157,113)
Change in net assets - governmental activities (page 47)	\$	1,870,405
	-

## Notes to Financial Statements December 31, 2011

#### Note I: Summary of Significant Accounting Policies

The financial statements of the Pikes Peak Library District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

#### I-A. Reporting Entity

The District is considered to be a "Special Library District" and was created through state statute (C.R.S. 24-90-110). A joint committee equally represented by the City of Colorado Springs, Colorado and El Paso County, Colorado appoints members of the District's seven-member Board of Trustees.

As required by US GAAP, these financial statements present the District and its component units, entities for which the District is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the District's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, if any, on the other hand, is reported in a separate statement in the financial statements to emphasize it is legally separate from the District.

Depending upon the significance of the District's financial and operational relationships with various separate entities, the organizations are classified as blended or discrete component units, related organizations, joint ventures, or jointly governed organizations, and the financial disclosure is treated accordingly.

**Blended Component Units** – The Pikes Peak Library District Building Authority does not issue separate financial statements. Given the nature and relationship between the Pikes Peak Library District and the Pikes Peak Library District Building Authority, exclusion of the Authority from the financial statements would cause the statements to be incomplete. The Board members of both the Pikes Peak Library District and the Pikes Peak Library District Building Authority are substantially the same. The District had no other blended component units during the fiscal year ended December 31, 2011.

In connection with the issuance of the Certificates of Participation, Series 1996, the Pikes Peak Library District Building Authority (the Authority) was established. The Authority is comprised of three board members, of which one member is the Secretary of the District's Board of Trustees. The Authority is not fiscally dependent on the District.

There was no financial activity applicable to the Pikes Peak Library District Building Authority during 2011 and the only asset of the authority is the title of the property, and that property is included in the District's capital assets.

**Related Organizations** – The District had no financial relationships of this type during the fiscal year ended December 31, 2011.

## Notes to Financial Statements December 31, 2011

**Joint Ventures** – The District did not participate in any joint venture during the fiscal year ended December 31, 2011.

**Jointly Governed Organizations** – The District had no financial relationships of this type during the fiscal year ended December 31, 2011.

#### Discretely Presented Component Unit

The Pikes Peak Library District Foundation, Inc. (Foundation).

This Foundation, which was formed in 2003, was established exclusively for the benefit of, to perform the function of, or to carry out the charitable and educational purposes of the Pikes Peak Library District. The Foundation is a tax–exempt corporation under the provisions of 501(c)(3) of the Internal Revenue Code. The Foundation issues separate financial statements and a copy can be obtained from the District's Financial Office at 5550 North Union Boulevard, Colorado Springs, Colorado 80918.

The District maintains control of the Foundation in the following areas:

- The Board of Trustees of the District originally elected members of the Foundation's Board of Directors. The Members of the Foundation Board make subsequent Board appointments.
- The Foundation may not disburse funds for costs that have not been recommended by the District's Board of Trustees.
- There are two members of the District's Board of Trustees that serve on the Foundation's Board of Directors at all times.

#### I-B. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net assets, a statement of financial position and statements of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements – The government-wide financial statements include the District's statement of net assets, the Foundation's statement of financial position and a statement of activities for the District and the Foundation. These statements report financial information on all of the nonfiduciary activities of the District and its component unit. The effect of interfund activity has been removed from these statements. The primary government and the discretely presented component unit are presented separately within these financial statements with the focus on the primary government. Individual funds are not displayed and the statements report governmental activities, generally supported by taxes and District general revenues. The District does not have any business-type activities, which rely to a significant extent on fees and charges for support.

The District's statement of net assets presents the financial position of the governmental activities of the District at year-end. The Foundation's statement of financial position presents the financial position of the Foundation at year-end using not-for-profit accounting and financial reporting principles promulgated by the AICPA's Financial Accounting Standards Board.

## Notes to Financial Statements December 31, 2011

The District's statement of activities presents a comparison between direct expenses and program revenues for the year for each function of the District's governmental activities. The Foundation's statement of activities presents the activities of the Foundation using not-for-profit accounting and financial reporting principles promulgated by the AICPA's Financial Accounting Standards Board. Direct expenses are those that are specifically associated with a function and, therefore, clearly identifiable to that particular function. The District does not allocate indirect expenses to functions in its statement of activities.

The Foundation reports under not-for-profit accounting and financial reporting principles promulgated by the AICPA's Financial Accounting Standards Board, including FASB Codification ASC 958-205. As such, certain revenue recognition criteria and presentation features are difference from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the District's financial reporting entity for these differences. Because the Foundation uses a generally accepted accounting principles (GAAP) reporting model that is different than the District's reporting model, the District has elected to present the Foundation's financial statements separately from those of the District as provided for under GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units—an amendment of GASB Statement No. 14.

The District's statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the District's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants* and contributions, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

The major individual governmental funds (the General Fund and North Project Fund) are reported in separate columns with a composite column for nonmajor funds.

Fund Accounting – The District uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The District uses three categories of funds: governmental, proprietary and fiduciary.

## Notes to Financial Statements December 31, 2011

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The District reports the difference between governmental fund assets and liabilities as fund balance.

The following are the District's major governmental funds:

General Fund – The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Colorado.

North Facility Project Fund – The North Facility Project Fund accounts for all financial activity related to the purchase of and renovation of a facility located in northern Colorado Springs. Funds are being accumulated over a period of several years. Primary and anticipated sources of funding for this project include the General Fund and other fundraising activities including grants and donations.

Additionally, the District reports the following nonmajor governmental fund types:

Special Revenue Fund – This fund accounts for resources that are restricted or committed for specific purposes, specifically gifts and grants.

*Debt Service Fund* – This fund accounted for the servicing of the long-term debt not being financed by proprietary funds. The debt service fund was closed during 2011.

Capital Projects Funds - These funds account for the financial activity related to major capital projects.

The District also reports the following proprietary fund type:

*Internal Service Fund* – This fund accounts for the health insurance plan that is provided to eligible District employees (employees with a regularly scheduled work week of 30 hours or more).

Additionally, the District reports the following fiduciary fund type:

Agency Fund – This fund is used to report resources held by the District in a purely custodial capacity. This fund is used to account for contributions made by employees who elect to participate in the District's Flexible Spending Program as authorized under Section 125 of the Internal Revenue Code.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are charges to customers for sales and services. Operating expenses for the District's internal service fund include the cost of

## Notes to Financial Statements December 31, 2011

sales and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### I-C. Measurement Focus

Government-wide Financial Statements – The District's government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net assets. The statement of activities reports revenues and expenses.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenue and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the District's government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

#### I-D. Basis of Accounting

#### District

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and the fiduciary fund uses the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, the phrase "available for exchange transactions" means expected to be received within 90 days of year-end.

## Notes to Financial Statements December 31, 2011

Revenues – Nonexchange Transactions – Nonexchange transactions in which the District receives value without directly giving equal value in return, include property taxes, specific ownership taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note III-B-1.). Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, specific ownership taxes, interest and federal and state grants.

Deferred/Unearned Revenue – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (i.e., they are measurable but not available) rather than as revenue.

Property taxes receivable not collected within 60 days of the year-end have been recorded as deferred revenue. Since property taxes are levied in December (i.e., there is a legal claim) for the next calendar year's operations, the total levy is reported as taxes receivable and deferred revenue.

Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as unearned revenue.

Deferred revenue is reclassified as "unearned revenue" on the government-wide statement of net assets.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

#### Foundation

The Foundation uses the accrual basis of accounting.

Temporarily restricted net assets are those whose use by the Foundation has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Foundation in perpetuity.

Gifts of cash and other assets received without donor stipulations are reported as unrestricted revenue and net assets. Gifts received with a donor stipulation that limits their use are reported as temporarily or permanently restricted revenue and net assets. When a donor stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Gifts and investment income that are originally restricted by the donor,

## Notes to Financial Statements December 31, 2011

and for which the restriction is met in the same time period, are recorded as temporarily restricted and then released from restriction.

Gifts of land, buildings, equipment and other long-lived assets are reported as unrestricted revenue and net assets unless explicit donor stipulations specify how such assets must be used, in which case the gifts are reported as temporarily or permanently restricted revenue and net assets.

Unconditional gifts expected to be collected within one year are reported at their net realizable value. Unconditional gifts expected to be collected in future years are reported at the present value of estimated future cash flows. The resulting discount is amortized using the level-yield method and is reported as contribution revenue.

Conditional gifts depend on the occurrence of a specified future and uncertain event to bind the potential donor and are recognized as assets and revenue when the conditions are substantially met and the gift becomes unconditional.

In addition to receiving cash contributions, the Foundation receives in-kind contributions from various donors. It is the policy of the Foundation to record the estimated fair value of certain in-kind donations as an expense in its financial statements, and similarly increase contribution revenue by a like amount. For the year ended December 31, 2011, \$1,022,713 was received in in-kind contributions.

The Foundation is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and a similar provision of state law. However, the Foundation is subject to federal income tax on any unrelated business taxable income. The Foundation had no unrelated business taxable income for the year ended December 31, 2011. The Foundation is not considered a private foundation.

The Foundation files tax returns in the U.S. federal jurisdiction. With a few exceptions, the Foundation is no longer subject to U.S. federal examinations by tax authorities for years before 2007.

#### I-E. Assets, Liabilities and Net Assets or Fund Balances

#### I-E-1. Cash, Cash Equivalents and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the District.

Investments are stated at fair value based on quoted market prices.

Under Colorado statutes, the District, its funds and fund types may lawfully invest eligible funds in the following securities:

- a. Obligations of the United States and certain U.S. government agencies' securities;
- b. Certain international agency securities;
- c. General obligation and revenue bonds of U.S. local government entities;
- d. Bankers' acceptances of certain banks;
- e. Commercial paper;
- f. Local government investment pools;

## Notes to Financial Statements December 31, 2011

- g. Written repurchase agreements collateralized by certain authorized securities;
- h. Certain money market funds;
- i. Guaranteed investment contracts
- j. Certain corporate bonds

The District may also deposit funds in Colorado financial institutions that are members of the Federal Deposit Insurance Corporation.

#### I-E-2. Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, when applicable. Property tax allowance as of December 31, 2011 was \$122,155.

#### I-E-3. Restricted Assets

Restricted assets are reported when restrictions on asset use change the nature or normal understanding of the availability of the asset. Restrictions on assets can be externally imposed by creditors, grantors, contributors or laws or regulations of other governments, or can be imposed by law through constitutional provisions or enabling legislation.

#### I-E-4. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the nonoperating revenues/expenses section in the internal service fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between funds reported in the governmental activities column are eliminated.

#### I-E-5. Prepaid Items

Payments made to vendors for services (e.g., insurance, rents, and library services from other libraries) that will benefit periods beyond December 31, 2011, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is classified as nonspendable, as this amount is not available for general appropriation.

#### I-E-6. Capital Assets

Capital assets may include land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasurers, infrastructure, books and audio visual materials and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. These assets generally result from expenditures in governmental funds. The District reports these

## Notes to Financial Statements December 31, 2011

assets in the governmental activities column of the government-wide statement of net assets but does not report these assets in the governmental fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$1,000. Improvements to capital assets are capitalized. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend an asset's life are expensed.

All reported capital assets are depreciated except for land, collections of historical treasures and constructions in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Leasehold improvements are depreciated over the shorter of the term of the lease or the estimated useful life of the asset. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings	20 years
Vehicles	5 to 10 years
Computer equipment	3 to 5 years
Other equipment	3 to 5 years
Furniture and fixtures	10 to 30 years
Books and audio visual materials	6 years

The District capitalizes its library books and audiovisual materials. Purchased items are recorded at cost, and donated items are capitalized at fair value on the date donated. Damage and lost materials are deleted from the inventory, using the specific identification method.

#### I-E-7. Compensated Absences

Employees earn 15 - 20 days of vacation leave annually based on length of service. District policy allows employees to carryover up to 320 hours of unused vacation leave into the next year for full-time employees, prorated for part-time employees. All outstanding vacation leave is payable upon resignation, termination, retirement or death.

Employees also earn sick leave and can accumulate up to 180 days of sick leave. Accumulated sick leave is payable only upon retirement or termination after twenty years of service at 50% of the accrued balance as specified in the District's policies. Upon resignation, termination or death prior to twenty years of service, any outstanding sick leave is forfeited.

The District estimates its accrued sick leave liability based on the sick leave accumulated at the statement of net assets date by those employees who currently are eligible to receive termination payments as well as other employees who are expected to become eligible in the future to receive such payments.

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

## Notes to Financial Statements December 31, 2011

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the District's past experience of making termination payments.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Governmental funds report the compensated absence liability at the fund reporting level only "when matured".

#### I-E-8. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in-full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year.

#### I-E-9. Net Assets or Fund Balances

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net assets".

Net Assets – Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net assets are reported as unrestricted.

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities. Financial reporting standards establish criteria for classifying fund balance amounts into specifically defined categories to make the nature and extent of constraints on these amounts more useful and understandable. The categories comprise a hierarchy based on the extent to which constraints must be honored for a specified purpose and for which amounts can be spent. Fund balances of governmental funds may be categorized as nonspendable, restricted, committed, assigned, and unassigned.

Nonspendable Fund Balance - cannot be spent because it is either in nonspendable form or is legally or contractually required to be maintained intact. Examples include items not expected to be converted to cash such as inventories and prepaid assets.

Restricted Fund Balance – is restricted for specific purposes based on constraints externally imposed by creditors, grantors, contributors, laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

## Notes to Financial Statements December 31, 2011

Committed Fund Balance – is constrained for a specific purpose by resolution or ordinance adopted by the Board of Trustees, and can be rescinded only through the same type of formal action used to establish the original commitment.

Assigned Fund Balance – is constrained for specific purposes as determined by Management and the Board of Trustees.

Unassigned Fund Balance - is unconstrained and comprised of residual uncategorized fund balance amounts.

As previously discussed, the District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted resources are available. When expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, committed amounts are considered to be reduced first, followed by assigned amounts and then unassigned amounts.

#### I-E-10. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### I-E-11. GASB Statement 54

For the year ended December 31, 2011, the District adopted Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This standard, which applies only to governmental funds, clarifies definitions for governmental fund types, establishes accounting and financial reporting standards for all governments that report governmental funds, and establishes criteria for categorizing fund balances into specifically defined classifications. GASB 54 required the District to classify fund balance based on the extent to which the District is bound to honor constraints on how the funds can be spent and also clarified the definitions of governmental fund types. Adoption of GASB 54 has no effect on beginning fund balance or change in fund balance.

#### Note II: Stewardship, Compliance and Accountability

#### II-A. Budgetary Information

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

 The District adopts an annual operating budget for its General Fund, Special Revenue Fund, Debt Service Fund and capital projects funds. During October, the Executive Director submits to the Board of Trustees a proposed budget for the fiscal year commencing the following January 1. The budget includes proposed expenditures and means of financing them.

## Notes to Financial Statements December 31, 2011

- 2. Public hearings are conducted by the Board of Trustees to obtain taxpayer comments.
- 3. Prior to December 15, the budget is adopted by formal resolution.
- 4. Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between departments within any fund and the reallocation of budget line items within any department in the General Fund rests with the Executive Director and/or Finance Officer. The Board of Trustees must approve revisions that alter the total expenditures of any fund.
- 5. Budgets for all fund types are adopted on a basis consistent with generally accepted accounting principles.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted per a separate budget report, and as amended by the Executive Director and/or the Board of Trustees throughout the year.

The original appropriation for all Governmental Funds has been amended as follows:

Changes to Original Budget Original Revised Budget Change Budget Budget 25,593,202 \$ 31,578,220 5,985,018 General Fund 499,977 353,166 146,811 Designated Purpose Fund 1,488 1,488 Certificates of Participation Fund 217,949 217,949 Bookmobile Purchase and Falcon Project Fund 80,325 80,325 Sand Creek Library Renovation Project Fund 479,927 479,927 RFID Capital Projects Fund 5,049,927 5,049,927 North Facility Project Fund 1.385,500 1,575,583 190,083 Capital Reserve Fund 300,000 300,000 Monument Facility Fund

7. All original and supplemental appropriations for all funds lapse at the end of the fiscal year.

#### II-B. Encumbrances

Appropriations in governmental funds are encumbered upon issuance of purchase orders, contracts or other forms of legal commitments. While appropriations lapse as of the end of the fiscal year, the succeeding year's budget is amended for the reappropriation of year-end encumbrances.

## Notes to Financial Statements December 31, 2011

#### Note III: Detailed Notes on All Funds

#### III-A. Deposits and Investments

#### III-A-1. Deposits

Deposits include bank accounts and short-term investments.

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by State regulators. Amounts on deposit in excess of federal deposit insurance levels must be collateralized. The eligible collateral is determined by PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another financial institution or held in trust. The fair value of the collateral must be equal to 102% of the aggregate uninsured deposits.

The District has noninterest-bearing transaction accounts which are covered under the FDIC Temporary Liquidity Unlimited Coverage for noninterest-bearing transaction accounts program. For the period December 31, 2010 through December 31, 2012, at all FDIC-insured institutions, deposits held in noninterest-bearing accounts will be fully insured regardless of the amount in the account. FDIC insurance limits for interest-bearing cash accounts is \$250,000. The carrying amount of the District's deposits as of December 31, 2011 was \$568,308. The bank balances were \$832,744, of which noninterest-bearing accounts totaling \$793,243 and interest-bearing accounts of \$39,501 are covered by federal deposit insurance. Any interest-bearing accounts in excess of \$250,000 during the year would be uninsured but collateralized in accordance with provisions of the PDPA. Additionally, the District had \$11,685 in cash on hand as of December 31, 2011.

#### III-A-2. Investments

Investment decisions are governed by the District's investment policy.

The primary objectives of the investment policy are:

Safety of Principal – The primary objective is to protect against the loss of any principal.

*Liquidity* – Investments will be managed to ensure that funds are available to meet obligations as necessary.

Yield – Investments will be managed to optimize returns within the appropriate safety and liquidity constraints.

The standard of prudence to be used shall be the "prudent investor" standard which states "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for preservation, considering the probable safety of their capital as well as probable income to be derived."

## Notes to Financial Statements December 31, 2011

The following is a list of eligible instruments for investments:

U.S. Treasury Obligations - Treasury Bills, Notes and Bonds with a maturity of five years or less.

Federal Agency Securities – Instruments such as those issued by the Government National Mortgage Association (GNMA) that are backed by the full faith and credit of the U.S. Treasury. Such securities must have a maturity of five years or less.

Federal Instrumentality Securities – Instruments such as those issued by the Federal National Mortgage Association (FNMA), Federal Farm Credit Bank (FFCB), Federal Home Loan Bank (FHLB), and the Federal Home Loan Mortgage Corporation (FHLMC). These obligations carry only an implied government guarantee. Such securities must have a maturity of five years or less.

Repurchase Agreements – Such instruments must be collateralized at 102% by U.S. Treasury securities, Federal Agency securities, or Federal Instrumentality securities.

*Prime Commercial Paper* – Such instruments must have a maturity of 270 days or less, and be rated in the highest category by one or more nationally recognized rating services.

*Bonds* – Instruments/debt issued by a U.S. corporation or bank with a net worth in excess of \$250 million. Securities must mature within three years and must be rated at least AA or Aa3 by two or more nationally recognized rating services.

Banker's Acceptances – Instruments issued by a state or national bank with a combined capital surplus of at least \$250 million.

General Obligation Debt or Revenue Obligation Debt – Debt with a maturity of five years or less, issued by any state or any political subdivision of any state.

Local Government Investment Pools – Investment pools, such as COLOTRUST, which are authorized by C.R.S. 24-75-701 and 702 at seq.

Money Market Mutual Funds – Funds that are registered under the Investment Company Act of 1940 that are no load and maintain a constant share price. Funds must be rated in the highest category by one or more nationally recognized rating services and must have a weighted average maturity in accordance with Federal Securities Regulation 2a-7.

Interest-Bearing Accounts, Certificates of Deposit – Such accounts must either be fully insured by the FDIC or are approved to accept public deposits and which have pledged eligible collateral to secure uninsured public funds on deposit with such institution in accordance with the requirements of the Public Deposit Protection Act.

The District has invested in the Colorado Government Liquid Asset Trust (COLOTRUST). This investment vehicle has been established for local government entities in Colorado to pool surplus funds for investment purposes by state statute. This fund operates similarly to a money market fund and each share is equal in value to \$1.00. This investment pool operates under the authority and in conformity with Part 6 of Article 75 of Title 24 of the Colorado State Revised Statutes.

## Notes to Financial Statements December 31, 2011

#### Credit Risk

The composition of the portfolio will vary according to market opportunities; however, the investment should be diversified by security type and institution.

Instrument	Allowed	Per Issuer
U.S. Treasury Obligations	100%	100%
Federal Agency Securities	75%	50%
Federal Instrumentality Securities	75%	50%
Repurchase Agreements	100%	50%
Prime Commercial Paper	100%	100%
Bonds	50%	50%
Banker's Acceptances	50%	50%
General Obligation Debt or Revenue Obligation Debt	50%	50%
Local Government Investment Pools	100%	100%
Money Market Mutual Funds	100%	100%
Interest-bearing Accounts, Certificates and Deposits	100%	100%

The maturity of the securities shall be structured to avoid undue concentration in any sector of the yield curve. No investment maturity shall exceed three years. Exceptions to this structure may be allowed where maturities can be structured to accommodate readily identifiable cash flows as approved by the Board.

The District's policy permits investment in local government investment pools. Current investments of \$13,587,307 are held in COLOTRUST, which was rated AAAm by Standard & Poor's at December 31, 2011. The District policy also encourages diversification of investments, limited to the Colorado Revised Statute CRS 24-75-701.

#### \* As applicable

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The Foundation's cash and investments are exposed to \$1,274,732 of custodial credit risk as of December 31, 2011.

## Notes to Financial Statements December 31, 2011

#### III-B. Taxes

#### III-B-1. Property Taxes

Property taxes for the current year are certified in arrears to El Paso County on December 15 and attach as a lien on property the previous January 1. For example, property taxes owed in 2011 are certified to the County in December 2010 and are available for collection on the due date, January 1, 2011. Property taxes are payable in full by April 30 or in two equal installments due February 28 and June 15. El Paso County bills and collects property taxes for all taxing districts in the County. The property tax receipts collected by El Paso County are remitted to the District in the subsequent month.

Property taxes are reported as a receivable and unearned revenue when the District has an enforceable legal claim to the taxes and as revenue when available for collection in the following year. Available means when due, or past due and receivable within the period, and collected within the period or expected to be collected soon enough thereafter, generally within sixty days, to be used to pay liabilities of the period.

#### III-B-2. Specific Ownership Taxes

Specific ownership taxes are collected by El Paso County for motor vehicles and other personal property registered in the District's assessment area. Specific ownership taxes are recorded as revenue when collected by El Paso County.

#### III-C. Interfund Receivables, Payables, and Transfers

The following schedule reflects the District's interfund receivables and payables as of December 31, 2011.

	Payable Fund Designated								
	9	General		urpose					
Receivable Fund			Fund	Total					
General Fund	\$	-	\$	40,590	\$	40,590			
Designated Purpose Fund		584,809				584,809			
Penrose Library Renovation Fund		207,521		-		207,521			
East Library Renovation Fund		898,964				898,964			
Monument Facility Project Fund		300,000		9		300,000			
North Facility Project Fund		4,970,927		-		4,970,927			
Capital Reserve Fund		178,752	-	-	_	178,752			
Total	\$	7,140,973	\$	40,590	\$	7,181,563			

Interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

## Notes to Financial Statements December 31, 2011

#### III-E. Long-Term Liabilities

#### III-E-1. Capital Leases

During 2010, the District entered into a capital lease for equipment. The assets acquired through the capital lease are reported as capital assets of \$174,192 with accumulated amortization of \$111,290 as of December 31, 2011. The amortization of assets recorded under capital leases is included in depreciation expense. The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2011, were as follows:

Year Ending December 31, 2011		
2012	\$	61,931
2013		5,161
Total minimum lease payments		67,092
Less: amount representing interest	-	(1,691)
Present value of minimum lease payments	\$	65,401

#### III-E-2. Changes in Long-term Liabilities

Long-term liability activity of the District for the year ended December 31, 2011 was as follows:

	Balance anuary 1, 2011	A	Additions	R	eductions	Balance cember 31, 2011	 ie Within	ı
Governmental activities Capital lease Compensated absences	\$ 123,071 1,657,630	\$	1,339,291	\$	(57,670) (1,321,472)	\$ 65,401 1,675,449	\$ 60,259 569,653	*
Total governmental activities long-term liabilities	\$ 1,780,701	\$	1,339,291	\$	(1,379,142)	\$ 1,740,850	\$ 629,912	

Compensated absences are generally liquidated by the General Fund.

<sup>\*</sup> Reported in accrued compensation payable in the statement of net assets.

## Notes to Financial Statements December 31, 2011

#### III-E-3. Computation of Legal Debt Margin

Assessed valuation	\$ 6,462,164,700
Debt limitation - 1.5% of total assessed value	96,932,471
Total debt (excluding compensated absences) Less capital lease	65,401 (65,401)
Total debt applicable to limitation	
Legal debt margin	\$ 96,932,471

Capital leases are not included as debt for purposes of calculating legal debt margin (Colorado Revised Statute 22-42-104).

#### III-F. Operating Agreements

The District has entered into several agreements for building leases, equipment and services. All agreements are renewable on a year-to-year basis. Should the Board of Trustees fail to appropriate funds for the subsequent budget year, the agreements can be terminated. The total cost for such agreements was \$977,731 for the year ended December 31, 2011.

The future minimum payments for the agreements, subject to the renewal process described above, are as follows:

#### Year Ending

Total	\$ 3,569,584
2017	137,122
2016	219,212
2015	444,913
2014	838,440
2013	939,258
2012	\$ 990,639

## Notes to Financial Statements December 31, 2011

Note IV: Other Information

IV-A. Retirement Plan

#### IV-A-1. General

All permanent, full-time employees of the District are eligible to participate in the El Paso County Retirement Plan (the Plan), a cost-sharing multiple-employer defined benefit plan. The Plan has six participating employers. The Plan provides benefits to members at retirement or disability, or to their beneficiaries in the event of death. The El Paso County Board of Retirement has the authority to establish and amend benefit provisions of the Plan. The Plan issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by writing to the El Paso County Retirement Plan, 105 E. Vermijo, Suite 200, Colorado Springs, Colorado 80903-2007, or by calling (719) 520-5491.

The District and covered employees are each required by District Resolution to contribute 6 percent of the employees' salary to the Plan. The current District contribution rate is 6 percent of annual covered payroll. The contribution requirements of Plan members and the District are established and may be amended by the El Paso County Board of Retirement. The District's annual contributions to the Plan for the years ended December 31, 2009, 2010 and 2011, were \$402,732, \$434,440 and \$476,098, respectively, equal to the required contributions for each year.

#### IV-B. Deferred Compensation Plan

The District offers its employees the Pikes Peak Library District Deferred Compensation Plan, an Internal Revenue Code Section 457 deferred compensation plan. Participation is voluntary. The District does not contribute to the Plan and the maximum amount that may be deferred under the Plan for 2011, excluding catch-up provisions for participants age 55 or over, was the lesser of \$16,500 or 33-1/3 percent of the participant's includable compensation. The District does not have fiduciary accountability for the Plan and does not hold the Plan's assets in a trustee capacity. Accordingly, the Plan's assets and related liabilities to Plan participants are not recorded on the financial statements of the District.

#### IV-C. Contingencies

#### IV-C-1. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The District carries commercial insurance for the risks of loss, including worker's compensation and employee accident insurance. There were no significant reductions in insurance coverage from the prior year, and there have been no settlements that exceed the District's insurance coverage during the past three years.

## Notes to Financial Statements December 31, 2011

The following is a summary of claims activity for the District's employee health plan for the years ended December 31, 2011 and 2010:

	P Be	Claims ayable ginning of Year	Claims Incurred	Claims Paid		Р	Claims ayable End of Year
Fiscal Year 2010	\$	57,824	\$ 1,022,001	\$	(995,108)	\$	84,717
Fiscal Year 2011	\$	84,717	\$ 1,082,507	\$	(1,071,966)	\$	95,258

The plan is partially self-insured and is offered to employees with a regularly scheduled workweek of 30 or more hours.

#### IV-C-2. Grants

The District periodically receives federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. District management believes disallowances, if any, will be immaterial.

#### IV-C-3. TABOR Amendment

In November 1992, the people of the State of Colorado passed an amendment to the state's constitution (Article X, Section 20) known as the Taxpayer's Bill of Rights (TABOR), which was effective December 31, 1992. TABOR's intended purpose was to reasonably restrain the growth of government by imposing spending and revenue limits on the state and any local government, excluding enterprises. Provisions of TABOR require, among other things, that:

- Each district shall reserve for use in declared emergencies 3% or more of its fiscal year spending (as defined by TABOR) excluding bonded debt service, and this amount is set aside as part of reserved fund balance, called "declared emergencies".
- If revenue from sources not excluded from fiscal year spending exceeds the limits
  prescribed by TABOR in dollars for that fiscal year, the excess shall be refunded in the
  next fiscal year unless voters approve a revenue change as an offset.
- Revenue collected, kept, or spent illegally since four full fiscal years before an individual
  or class action enforcement suit is filed shall be refunded with 10% annual simple interest
  from the initial conduct.
- With minor exceptions, advance voter approval is required for any new tax, tax rate
  increase, or mill levy above that for the prior year or creation of any multiple fiscal year
  direct or indirect district debt or other financial obligation without certain cash reserve
  amounts or a non-appropriation clause contained within the legal documents.
- Management believes it is in compliance with all aspects of TABOR.

## Notes to Financial Statements December 31, 2011

#### IV-C-4. Economic Conditions

The current economic environment presents governmental and not-for-profit organizations with unprecedented circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments and other assets, declines in contributions and tax revenues, constraints on liquidity and difficulty obtaining financing. The financial statements have been prepared using values and information currently available to the District.

Current economic conditions have made it difficult for many donors to continue to contribute to governmental and not-for-profit organizations. A significant decline in contribution revenue could have an adverse impact on the District's future operating results.

In addition, given the volatility of current economic conditions, the values of assets and liabilities recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values and allowances for contributions and property tax receivable that could negatively impact the District's ability to maintain sufficient liquidity.

#### IV-D. Commitments

As of December 31, 2011, the District had construction commitments of approximately \$277,000.

#### IV-E. Subsequent Event

In January 2012, the District completed the purchase of a facility (112,883 sq. ft.) at a cost of \$3.75 million. The facility will be used for both library and administrative services.

### Notes to Required Supplementary Information Year Ended December 31, 2011

#### Note I: General Fund Budgetary Information

The District adopts an annual operating budget for its General Fund each year. Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between departments within any fund and the reallocation of budget line items within any department in the General Fund rests with the Executive Director and/or Finance Officer. The Board of Trustees must approve revisions that alter the total expenditures of any fund. Budgets for all fund types are adopted on a basis consistent with generally accepted accounting principles.

THIS PAGE LEFT BLANK INTENTIONALLY

**Supplementary Information** 

#### **MAJOR FUNDS**

#### General Fund

The General Fund is used to account for all transactions of the District that are not required legally or by sound financial management to be accounted for in another fund. This fund accounts for the District's ordinary operating expenditures, which are financed primarily from property taxes. It is the most significant fund in relation to the District's overall operations.

#### North Facility Project Fund

This North Facility Project Fund, a capital projects fund, is used to account for all financial activity related to the purchase of and renovation of a facility located in northern Colorado Springs. Funds are being accumulated over a period of several years. Primary and anticipated sources of funding for this project include the General Fund and other fundraising activities including grants and donations.

## Comparative Balance Sheets General Fund December 31, 2011 and 2010

	2011	2010
Assets

#### NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

A Special Revenue Fund is used to account for all financial activity related to funds received that are restricted or committed for specific purposes. The District has one special revenue fund, the Designated Purpose Fund, which is used for this purpose.

#### DEBT SERVICE FUNDS

A Debt Service Fund is used to account for the accumulation of resources for the payment of principal, interest, and related costs relevant to long-term debt. The District has one debt service fund as follows:

#### Certificates of Participation Reserve Fund

This fund is used to account for the accumulation of resources for the payment of principal, interest and related costs relevant to the \$2,500,000 Pikes Peak Library District Certificates of Participation, Series 1996 (Series 1996 COPs). The outstanding principal balance due on the Series 1996 COPs is \$0. This fund was closed during 2011.

#### CAPITAL PROJECTS FUNDS

A Capital Projects Fund is used to account for all financial activity related to the acquisition, construction, and renovation of major capital facilities. The District has seven capital projects funds as follows:

#### **Bookmobile Purchase and Falcon Project Fund**

This fund is used to account for all financial activity related to the acquisition of a bookmobile and for the construction of a 6,000 sq. ft. facility in the Falcon, Colorado vicinity. This project was substantially completed during 2009. This fund was closed during 2011.

#### Sand Creek Library Renovation Project Fund

This fund is used to account for all financial activity related to the renovation of the Sand Creek Library facility. The primary sources of funding for this project include fundraising and the General Fund. This project was substantially completed during 2009. This fund was closed during 2011.

#### **RFID Capital Project Fund**

This fund is used to account for all financial activity related to the RFID capital project. The first phase commenced during 2011. The primary source of funding for this project has been the General Fund. This fund was closed during 2011.

#### East Library Renovation Fund

This fund is used to account for all financial activity related to the renovation of the East Library facility. Funds are being accumulated over a period of several years. The primary source of funding for this project is the General Fund.

#### Penrose Library Renovation Fund

This fund is used to account for all financial activity related to the renovation of the Penrose Library complex. Funds are being accumulated over a period of several years. The primary source of funding for this project is the General Fund.

#### Monument Facility Project Fund

This fund is used to account for all financial activity related to the acquisition of land and the construction of a library facility located in the proximity of Monument, Colorado. Funds are being accumulated over a period of several years. Anticipated sources of funding include fundraising, federal, and state grants and transfers from the General Fund.

#### Capital Reserve Fund

This fund is used to account for all financial activity related to capital projects and expenditures of capital items not specifically accounted for under a separate fund. Funds are being accumulated over a period of several years. The primary source of funding for these projects is annual transfers from the General Fund.

#### INTERNAL SERVICE FUND

Internal Service Funds are used to account for revenues received from District departments to be used for services to benefit all departments.

The District has one Internal Service Fund.

#### **Employee Health Plan Fund**

This fund is used to account for the accumulation of and utilization of financial resources related to the District's partially self-insured medical health plan, offered to employees with a regularly scheduled workweek of 30 or more hours.

#### AGENCY FUND

Agency funds are used to account for assets held by the District as an agent for individuals, private organizations, and other governments.

The District has one agency fund.

#### Flexible Spending Accounts

This fund is used to account for contributions made by employees who elect to participate in the District's Internal Revenue Service Section 125 program (medical care or dependent care accounts). Employee contributions for the medical accounts come from wages and/or accrued vacation, and employee contributions for the dependent care accounts come from wages. Such amounts are to be used for either certain medical expenses or dependent care expenses incurred which are not covered by the District's employee benefits coverage.

#### Notes to Supplemental Information December 31, 2011

#### Note I: Reclassifications

Certain 2010 balances have been reclassified to conform with 2011 presentation.

#### STATISTICAL SECTION

This part of the Pikes Peak Library District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	Page
Financial Trends	139
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
Revenue Capacity	152
These schedules contain information to help the reader assess the District's most significant revenue source, the property tax.	
Debt Capacity	165
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	172
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	174
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
