Angleberger, Tom. [Fuzzy](#). When Max makes friends with the first-ever robot student at her middle school, she soon discovers that there is more to the Robot Integration Program than meets the eye.

Ball, Nate. [Blast Off!](#) (series). Zack wants to help the small, blue alien that crash lands in his room, but Amp proves to be very annoying. This easy chapter book mixes science with madcap humor.

Brown, Peter. [The Wild Robot](#). When Roz the robot is shipwrecked on an isolated island, she must adapt to her rugged surroundings and befriend its animal inhabitants in order to survive.

DiTerlizzi, Tony. [The Search for WondLa](#) (series). Eva Nine has lived all of her 12 years in an underground sanctuary with only a robot mother to raise her. Her world changes forever when evil aliens attack and she escapes to the surface.

Gibbs, Stuart. [Space Case](#) (series). Life on Moon Base Alpha is hard enough, but things become downright dangerous for Dash when the colony's physician turns up dead. A mystery packed with adventure, humor, and suspense.

Korman, Gordon. [Masterminds](#). Life seems perfect in tiny Serenity, New Mexico, until Eli and his friends discover the startling truth about their origins. A twist-turning, action-packed adventure.

Kraatz, Jeramey. [Space Runners: The Moon Platoon](#) (series). Earth is in dire straits, so Benny is thrilled when he's selected by genius inventor Elijah West to visit his posh moon resort. However, danger looms when alien invaders threaten humanity.

Liss, David. [Randoms](#). When the President of the USA shows up at Zeke's home wanting to "borrow" the boy for a couple days, his mom says no, but the President wins out. Zeke has been randomly chosen to live in space for a year.

Maberry, Jonathan. [The Orphan Army](#) (series). For the last six years, terrifying robotic bug aliens have roamed Earth. Milo, 11, is part of the alliance that is bravely fighting the intruders. Unexpected help comes from Earth's ancient magical creatures.

McDougall, Sophia. [Mars Evacuees](#). Earth is under attack by aliens and Alice and other carefully selected kids have been evacuated to Mars to train as soldiers. The cadets must step up their game when all of the adults disappear.

Ross, Joel. [The Fog Diver](#) (series). A deadly Fog (resulting from nanites gone wrong) has sent humanity to the highest mountain peaks for survival. Chess and his fellow slum kids sail their rickety airship, scavenging the surface for salvage to sell while avoiding evil Lord Kodoc.

Trine, Greg. [Willy Maykit in Space](#). Even though his explorer dad disappeared in the Amazon, his mother still allows Willy to go on the big field trip...to another planet. Adventures ensue when he accidentally gets left behind in this fast-reading easy chapter book.

Winick, Judd. [HiLo: The Boy Who Crashed to Earth](#). This fun graphic novel series stars an alien who falls from the sky one day while D.J. is playing nearby. The two become fast friends, and work together to save the world. (J-741.5973 W772H)
