

## How to Play:

1. Earn points by reading or doing activities! You'll earn one point per minute read or 30 points per activity completed. Participants may finish the entire game through reading, or do a combination of reading and activities.
2. Participants must complete all three levels to finish the game. Visit any library to redeem points and pick up prizes. Please pick up prizes no later than July 31.
3. Once finished, participants are also automatically entered into the grand prize drawing!
4. There are four bonus levels. Participants must continue to read after finishing the game in order to complete the bonus levels. For each additional 180 minutes read, participants get their name into the grand prize drawing again. Finishing all four bonus levels means that a participant has a total of five entries in the drawing.
5. Participants may use either their game card or their online Beanstack account (or both!) to log their points, both for the game and the bonus levels. Library staff and volunteers can help with online logging, if needed.

## BONUS!

Keep reading to earn more entries into the grand prize drawing - a six-month gift subscription to KiwiCo! For every 180 minutes you read, you get one additional entry into the drawing, for up to four additional entries. Remember to log this time into Beanstack, too. See [kiwico.com](http://kiwico.com) for more information about the crates.
