

## KidsMake

*KidsMAKE programs are where imagination and creativity are used in two ways: Art and Make! That means it can get messy, but we are okay with that! So, roll up your sleeves and let's create things like dinosaur habitats, rainbow art, fairy houses, suncatchers, and so much more! Explore your own ideas or collaborate with others - the one requirement is that you have fun!*

### Under the Sea Portal Suncatchers

Create a suncatcher portal to take a peek into fun, under the sea creatures and watch the light stream through your creation!

*Ages 5 - 12.*

### Fairy Huts

Create a mystical fairy hut to house a tiny, flameless light or a mini-imaginary creature! *Ages 5 -12.*

### Ocean Sensory Play

Create a mini aquarium to take home with you! Using ocean supplies, this fun, sensory bottle can house a little bit of under the sea life! *Ages 5 - 12.*

### Squishy Stress Balls

Create your own squishy stress ball and decorate it however you like! *Ages 5 - 12.*
