

TAKE & MAKE: Bam! Pow! Magnets

Materials:

- Scissors (you provide)
- Epoxy sticker (clear & round)
- Magnet with adhesive sticker

Instructions

1. Cut out a “Bam!” or “Pow!” icon above. There are two of each icon on this sheet in case you make a mistake!
2. Place your icon face up on the table. Take the backing off the clear plastic epoxy sticker and press the sticky side to the top of the colorful side of the icon. You want to be able to see the icon through the sticker. If there is a piece of plastic on the non-sticky side of the epoxy sticker, peel it off and discard.
3. If the magnet has a separate adhesive sticker, peel the paper backing off one side of the double-sided adhesive sticker and attach to the magnet. If the adhesive sticker is already attached, skip this step.
4. Remove the backing from the sticker attached to the magnet and stick the magnet to the back of the paper circle.
5. Congrats you have a magnet! Repeat for the second magnet.
