

Ages 5-12

TAKE AND MAKE: Clothespin Button Racers

Cut 2 straw pieces that are each about 1 inch long.

Slide a bread tie through each straw. Use the bread tie to secure a button at each end of the straw by looping the tie back through the button hole.

Clip one axle to the clothespin.

Slide the second axle into the back of the clothespin as close to the spring as possible. Use a rubber band to secure it in place.

Begin racing!
