Windows 7 Wireless at PPLD

Open the Control Panel and select the Network and Internet Icon.

![Image of Control Panel with Network and Internet highlighted]

Please verify the wireless network adapter on the laptop is turned on before proceeding.

Next, select Connect to a Network.

![Image of Network and Sharing Center with Connect to a network highlighted]
Available networks will then pop up in a second window in the lower right corner. You will then choose PPLD-W.

Next, open up your preferred browser. You will then be prompted to accept the PPLF WIFI Access Guest Wireless Access Acceptable Use Policy.

If you would like your laptop to automatically connect to PPLD’s Wi-Fi check the box.
